

II INSIGHTS DASHBOARD

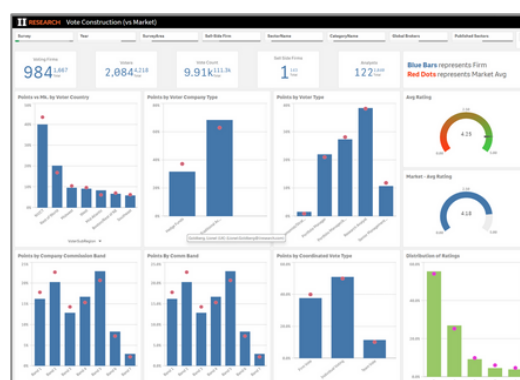

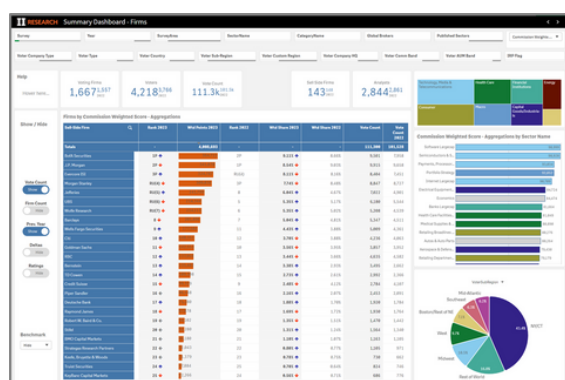

II Research is the leading provider of independent performance validation and a source of qualitative market intelligence for Corporates and Investment Professionals

WHY II RESEARCH?

- Changing regulatory dynamics and shifts in market drivers brought about a change in the provision, acquisition and consumption of research, advisory services and buy side interaction.
- *II Research* produces unique insights and actionable data based on annual performance and market penetration assessments across global regions and key capital market players, including investment managers, broker firms and corporate issuers. The independent rankings, company and executive evaluations deliver distinct annual peer-to-peer comparative analyses.

INTRODUCING THE II INSIGHTS DASHBOARD

An interactive key decision making tool based on actionable and comparative data analytics across global markets and constituents. Companies define their own set of benchmark criteria, peer group and target demographics to monitor their market perception and perform a capability assessment, which helps inform strategic decision making and enable effective process management.

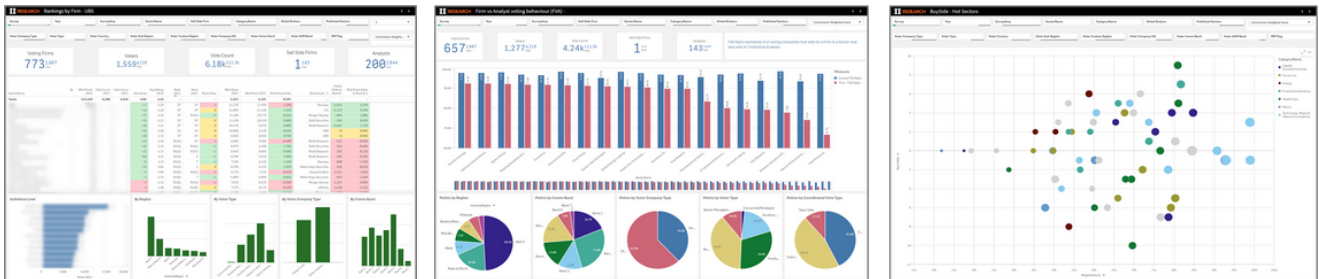

SUMMARY

- Visualisation of survey data that can be extracted for corporate collateral and pitchbooks.
- Simple, intuitive filters to navigate company and individual performance data.
- Ability to combine multiple data criteria to interrogate client universe.

FEATURES & BENEFITS

- Ranking tables for your firm and competitors to examine the highest contributing analysts.
- Deep dive analysis of buy side voting firms split by type, band, geography per sector.
- Examine competitor and peer group rankings and data against your own firm.
- Configurable benchmarking against *Best in Class*.
- Interrogation of the voter universe to extract intelligence (i.e. Hedge fund by geography).
- Unlocking previously unavailable data (i.e. Rankings based on Centralised/Broker votes).
- List of voting clients provided by sector including the regional profile.
- Trend analysis of vote density on a sector basis (i.e. what sectors are 'hot').
